

## Tracer Imaging LLC Product Offering on Mediaclip Product Personalization Platform Network

[Mediaclip](#) reveals the immediate availability of Tracer Imaging's in-store retail and other fulfillment products on Mediaclip Product Personalization Platform Network.

[Tracer Imaging](#) is a personalized product printing and manufacturing company headquartered in New York, NY and Leominster, MA that provides remarkable array of customizable products.

### Mediaclip will launch with the following products from Tracer:

**TilePix "No Nail" Frames** – These frames are designed for 8"X8" prints and use a patented magnetic self-adhesive pad system that is unique to the industry. The TilePix system allows for a consumer to easily hang these frames on the wall and adjust them while they are on the wall. The self-adhesive pads do not damage the walls. These can be assembled in seconds and are available in black, white and grey colors. Available for in store or fulfillment.

**TilePix Gorilla Glass Panels** – This product is made from Corning Gorilla Glass which is the same glass found on your cellphone, laptop or TV. This 8.25"X8.25" panel is printed directly to the glass and a white vinyl backer is added to protect the print. The glass is just .7mm thick and has the highest clarity in the marketplace. The glass is easily cleanable and will not yellow or crack. The panels are hung using the TilePix self-adhesive magnet pad system. This is a fulfillment only product.

**Snap2Canvas** – This product is designed for in store assembly to make canvas prints using a canvas fixture that uses tension and a snap-fit system to give the tightest canvas on the market. The frames needed are sold separately of the canvas material in 8"X10", 11"X14", 12"X12" and 16"X20" sizes. All wood frames are renewably forested. Assembly can be completed in under 3 minutes. This is an in store product however fulfillment can be provided if requested.

**4X6 Mini Canvas** – This product is assembled using the Snap2Canvas fixture and a small JIG in one minute or less in a retail store environment. The product is a two piece black plastic product. Sides are reinforced to protect from warping or bending due to temperature or aging. Uses tension and a snap-fit system to provide a tight, high quality product. The product comes with an easel for use on a table or can be hung on the wall. Made from Industrial Recycled Resin. For in store or fulfillment. Fulfillment is automated and can assemble a unit every 10 seconds.

**Hanging Canvas** – This product is designed for an 11"X14" full bleed canvas print. Actual size 11"X16". Kit provides 2 natural wooden poplar bars, 4 plastic connectors, hanging cord and the

11”X14” canvas on a Tracer “Magi-Back” carrier system. The carrier is designed for straight path large format printing. Available for in store or fulfillment.

**Snap2Photo Frames** – This product is designed for 8”X10” prints creating either a true floating frame or a matted frame(black or white mat). The textured paper wrapped poplar frames come in black, brown and antique white colors. The glass front frames provides a truly high end custom frame look. The frame is built using the Snap2Canvas assembly fixture. Designed for in store or fulfillment.

**252 pc Puzzle** – The puzzle is supplied on a sheet for printing of an 11”X13” puzzle and a 4”X6” puzzle box image. The puzzle uses a Tracer “Magi-Back” carrier for full bleed printing. The carrier is designed for straight path large format printing. The final product is delivered in a black box with the 4X6 image on the top of the box. Available for in store or fulfillment.

**Acrylic Block** – 2”X2”X1” Crystal Clear Magnetic Block can be assembled in under 60 seconds. The Acrylic Block has a white magnetic backer that adheres to the acrylic magnets. The white backer has an adhesive liner to permanently attach the 2”X2” print. Uses a small JIG to make sure every acrylic block is perfectly aligned. For in store or fulfillment.

**Wooden Ornament** – 2”X2”X.75” wooden ornament with gold eyelet and red ribbon. Designed for the Christmas holiday. Made of Aspen Birch and renewably forested. Ornament designed for two 2”X2” prints that adhere to each side of the ornament using the same JIG that is used for the acrylic block. Designed to hit a low price point for the holiday season. For in store or fulfillment.
